Hello!

My name is Morgan Yarborough and I am a senior graphic design major at Winthrop University.

This book was developed as part of my senior thesis; I wanted to find a way to incorporate my love for typography with my love of crafting. Put the two subjects together and you get this book which combines the two in a way which gives the reader the opportunity to make the projects in order to spruce up the place they call home.

I hope you enjoy it and have fun delving into the world of craft-ography!

BEDROOM

CURTAIN CALL 40

SLEEP TIGHT 42

LIGHT IT UP 44

CURTAIN CALL

Why shouldn't typography be incorporated into your bedroom? A subtle but fun place to use it is on your curtains. You can decide what words, letters, numbers, or symbols you want to display and show it off!

1

\$\$

MATERIALS NEEDED:

Alphabet stickers
Curtain
Fabric spray paint

- 1) In a well ventilated space, lay your curtain flat onto a clean area.
- 2) Next take your alphabet stickers and place them all over the curtain in the order you desire. The placement could be random or you could have them spell out words.
- 3) Take your fabric spray paint (it's important that it is specifically for fabric!) and lightly coat the curtain until there is a good layer of color.
- 4) Slowly peel away the alphabet stickers.
- 5) Allow the curtain to dry for at least 30 minutes. Now you're left with a one-of-a-kind curtain to hang in your bedroom or around your home!

SLEEP TIGHT

The heart of the bedroom is indeed the bed. It ties the space together nicely and gives you another opportunity to use typography in the home whether it is on the headboard, sheets, or pillows.

2

\$

MATERIALS NEEDED:

Headboard
Paint
Paint brush
Sandpaper

- 1) The material your headboard is made of determines the kind of paint that you use.
- 2) Next, take your paintbrush and paint of of choice and pick out a spot on the headboard that you want your quote or word to go.
- 3) Write out whatever you want!
- 4) Once it dries, take a small piece of sandpaper (if your headboard is wood) and distress the design a little in order to make it blend in better.

LIGHT IT UP

If you have not been able to tell already, typography is the light of my life. What better way to show that off than through a craft involving a light?!

1

\$

MATERIALS NEEDED:

Lamp shade
Alphabet stickers

- 1) Start by unplugging your lamp and laying it on it's side for easy access to the inside of the lampshade.
- 2) Take the alphabet stickers that can easily be read the same way front and back. (Take notice of the letters used in the photo to the right.)
- 3) Attach the stickers to the inside of the lampshade. You can place them randomly or spell out words.
- 4) Plug your lamp back in, turn on the light, and enjoy your simple but classic masterpiece!

| DISH IT UP | 50 |
| A ROOM WITH A VIEW | 52 |

SOAP FRESH, SOAP CLEAN

A fun alternative to the boring bar soap found in bathrooms every place you turn. Personalize each bar for yourself or make some to give as a gift!

3

\$\$

MATERIALS NEEDED:

X-Acto
Glycerin Soap Base
Soap Mold(s)
Microwave
Microwavable Safe Container
Foam Sheet
Ruler

- 1) Take your foam sheet and cut out your letter(s) of choice.
- 2) Start the soap mixture by cutting down the glycerin soap into smaller pieces if they are originally large.
- 3) Put these pieces into a microwave safe container and heat for 15 seconds or until the entire mixture stirs smoothly.
- 4) Alright, here is where you have to move fast so the soap doesn't harden in the container. Pour enough of the soap mixture into the mold to fill it halfway.
- 5) Let the mixture harden for 5 minutes.
- 6) Take your foam letter, and make sure to stick it down onto the soap backwards.
- 7) Heat up the remainder of the soap for another 15 seconds.
- 8) Using quick skills and a toothpick (or another small and pointy object), hold down the letter as you pour the rest of the soap mixture into the mold.
- 9) Let the soaps cool for about 2 hours before you attempt to remove them from the mold.

DISH IT UP

Are random things always littering your bathroom counter? Make this neat little dish and give all of those things a place to call home.

2

\$\$

MATERIALS NEEDED:

Oven bake clay
X-Acto
Oven safe bowl
Rolling Pin
Jar to trace
Oven
Alphabet stamps

- 1) Take your polyclay, break it apart, and roll it out with a rolling pin until you get it smooth and flat.
- 2) Next, cut out a circle shape relative to the size of your bathroom-counter-godies and use your alphabet stamps to demboss the letters or words you want to include. One suggestion is to label what you want the bowl to be used for: hairbows, q-tips, etc.
- 3) Take your circle and mold it into a bowl.
- 4) Follow the baking instructions provided on the clay package.
- 5) Let it cool completely before removing.
- 6) Next, you can leave the bowl exactly how it is, paint some colors onto it, paint the edges, whatever you want!

A ROOM WITH A VIEW

Why should your bathroom walls be bland? Dress them up with something other than paint and make all of your guests envy your fun artwork.

1

\$

MATERIALS NEEDED:

Canvas
Alphabet letters
Spray paint
Glue

- 1) Take your canvas and lightly and evenly section it out with a ruler and pencil depending on how many letters long your word is.
- 2) Take your alphabet letters and space them out on the canvas according to the marks you made in step one.
- 3) Glue the letters down onto the canvas.
- 4) Next, in a well ventilated area, spray paint the entire canvas the color of your choosing. This will give the letters a embossed effect.
- 5) Let it dry completely before displaying it in your bathroom.
